

701—72.7(441) Restricted certification. Assessors granted restricted certificates by virtue of their holding office on January 1, 1976, shall retain the restricted certificate even though they may obtain regular certification as provided in Iowa Code section 441.5. However, once an assessor holding office on January 1, 1976, resigns or is removed from the position held on that date, the restricted certificate shall be canceled by the director. An assessor holding a restricted certificate may be reappointed to the position for which the restricted certificate is valid without having to obtain regular or temporary certification. The assessor must, however, satisfy the continuing education requirement contained in Iowa Code section 441.8 to be eligible for reappointment.

This rule is intended to implement Iowa Code sections 441.5 and 441.6.
